

Toolroom Supervisor
36.5 hours per week
Permanent

The Company

Cambion Electronics Ltd is a world class manufacturer of Electronic Components. As a result of retirement, we are looking for a Toolroom Supervisor to lead a successful toolroom ensuring high standards of performance and maintenance.

The Role

Organise and review in-house and sub-contracted tool making resource
Manufacture and design of jigs and prototype tooling utilising CAD (Inventor/Autocad)
Liaise with Business Unit Coordinators and engineering personnel to agree design and tooling changes to mould and press tools
Modify and repair press tools and moulds
Supervise and develop toolroom personnel
Maintain safe work environment by following standards and procedures; complying with legal regulations

The Candidate:

A time-served Toolmaker with supervisory experience, ideally within precision engineering manufacture. You will have experience in repair, modification and maintenance of tooling with strong bench tool skills including surface grinding, turning, milling.

CNC programming knowledge for Heidenhain TNC and Fanuc desirable

In return the successful candidate can expect:

- Competitive salary.
- Performance related bonus scheme
- 25 days annual holiday entitlement (plus statutory holidays).
- Free on-site parking.
- 1pm finish on Fridays

If you wish to apply, please send your CV and current salary details for the attention of Hilary Scanlon – Human Resources Officer, hilaryscanlon@cambion.co.uk
